

SAT Prep Courses

The following is a partial list of schools and private companies that offer SAT Reasoning & SAT Subject Preparation courses. The courses are offered at different times and locations and offer different approaches to preparing an individual for the SAT tests. This list is provided as a starting point for you and your child to find the course that fits best into your schedule and will provide your child with a good preparation for the SAT tests. **The value of any SAT preparation course is directly proportionate to the motivation and time spent by the individual in doing the work that is required in these courses.**
